Subject index*

A

Actinomyces
Periapical actinomycosis (Aldred and Talacko) (Letter); (Hirshberg et al) (Reply). 2003;96:386
Polymerase chain reaction detection of *Propionibacterium propionicus* and *Actinomyces radicidentis* in primary and persistent endodontic infections (Siqueira and Rôças). 2003;96:215-22
Adverse events
Adverse events and adverse outcomes (Greenberg). 2003;96:251 (Editorial)
Aging
The aging forehead (Niamtu) (Letter); (Ghali) (Reply). 2003;96:656-7, 657-8
Allergy; *see* Hypersensitivity
American Academy of Oral and Maxillofacial Pathology
Abstracts presented at the 57th Annual Meeting and Continuing Education Program of the American Academy of Oral and Maxillofacial Pathology. 2003;96:293-305
Section manuscript topic mix: ongoing discussion (Gould). 2003;96:127 (Editorial)
The future of oral and maxillofacial pathology (Wright et al). 2003;96:176-86
American Academy of Oral and Maxillofacial Radiology
Excellence in publishing: the Wuehrmann Prize (Matteson). 2003;96:385 (Editorial)
Analgesics
Comparison of preoperative pain and medication use in emergency patients presenting with irreversible pulpitis or teeth with necrotic pulps (Nusstein and Beck). 2003;96:207-14
Angioneurotic edema
Management of oral surgery in patients with hereditary or acquired angioedemas: review and case report (Maeda et al). 2003;96:540-3
Angiosarcoma; *see* Sarcoma
Anisakiasis
Gingivostomatitis after eating fish parasitized by *Anisakis simplex:* a case report (Eguia et al). 2003;96:437-40
Ankylosis
Ankylosis of the jaw in a patient with fibrodysplasia ossificans progressiva (Herford and Boyne). 2003;96:680-4
Antibiotics
A prospective placebo-controlled double-blind trial of antibiotic prophylaxis in intraoral bone grafting procedures: a pilot study (Lindeboom and van den Akker). 2003;96:669-72
Bacteriological study of root canals associated with periapical abscesses (de Sousa et al). 2003;96:332-9
Cytokines in periradicular lesions: the effect of linezolid treatment (Danin et al). 2003;96:492-8
Evaluation of the antibacterial potential of tetracycline or erythromycin mixed with calcium hydroxide as intracanal dressing against *Enterococcus faecalis* in vivo (Molander and Dahlén). 2003;96:744-50
Reduction of viable bacteria in dentinal tubules treated with clindamycin or tetracycline (Lin et al). 2003;96:751-6
The efficacy and safety of 50 mg penicillin G potassium troches for recurrent aphthous ulcers (Kerr et al). 2003;96:685-94
Anticoagulants
Oral health and health behavior in patients under anticoagulation therapy (Padrón et al). 2003;96:519-20 (Letter)
Arrhythmia
Dental management of the patient with cardiac arrhythmias: an update (Rhodus and Little). 2003;96:659-68
Arteriovenous malformations
Intraoral venous malformation presenting with multiple phleboliths (Scolozzi et al). 2003;96:197-200
Arthrocentesis
Prognostic indicators of the outcome of arthrocentesis: a short-term follow-up study (Emshoff et al). 2003;96:12-18
Arthroscopy
Magnetic resonance evaluation of the disk before and after arthroscopic surgery for temporomandibular joint disorders (Ohnuki et al) 2003;96:141-8. Correction 2003;96:266
Aspergillosis
Aspergilloma of the maxillary sinus complicating an oroantral fistula (Shams and Motamedi). 2003;96:3-5 (Letter)

B

Bacterial infections
Bacteriological study of root canals associated with periapical abscesses (de Sousa et al). 2003;96:332-9
Efficacy of chlorhexidine- and calcium hydroxide-containing medicaments against *Enterococcus faecalis* in vitro (Basrani et al). 2003;96:618-24
Evaluation of the antibacterial potential of tetracycline or erythromycin mixed with calcium hydroxide as intracanal dressing against *Enterococcus faecalis* in vivo (Molander and Dahlén). 2003;96:744-50

*July, 1-126; August, 127-250; September, 251-384; October, 385-516; November, 517-652; December, 653-800

Necrotizing stomatitis: report of 3 *Pseudomonas aeruginosa*–positive patients (Barasch et al). 2003;96:136-40
Periapical actinomycosis (Aldred and Talacko) (Letter); (Hirshberg et al) (Reply). 2003;96:386
Polymerase chain reaction detection of *Propionibacterium propionicus* and *Actinomyces radicidentis* in primary and persistent endodontic infections (Siqueira and Rôças). 2003;96:215-22
Reduction of viable bacteria in dentinal tubules treated with clindamycin or tetracycline (Lin et al). 2003;96:751-6

Biocompatible materials
Biocompatibility of an experimental glass-ionomer cement sealer in rat mandibular bone (Ogasawara et al). 2003;96:458-65

Biopsy
Oral brush biopsy: the problem of false positives (Rick and Slater). 2003;96:252 (Letter)
The oral brush biopsy: separating fact from fiction (Frist). 2003;96:654-5 (Letter)

Blood groups
The relationship between oral *Candida* carriage and the secretor status of blood group antigens in saliva (Shin et al). 2003;96:48-53

Blood supply
Ultrasound identification and quantitative measurement of blood supply to the anterior part of the mandible (Lustig et al). 2003;96:625-9

Blood transfusion
Blood loss in orthognathic procedures—is there an indication to cross match? (Khan). 2003;96:655-6 (Letter)

Bone diseases
Bilateral bone loss of the maxilla (Brown et al). 2003;96:6-11
Dental characteristics of fibrous dysplasia and McCune-Albright syndrome (Akintoye et al). 2003;96:275-82

Bone transplantation
A preliminary study of monocortical bone grafts for oroantral fistula closure (Haas et al). 2003;96:263-6
A prospective placebo-controlled double-blind trial of antibiotic prophylaxis in intraoral bone grafting procedures: a pilot study (Lindeboom and van den Akker). 2003;96:669-72
Outcome of bone grafting in relation to cleft width in unilateral cleft lip and palate patients (van der Meij et al). 2003;96:19-25

Botulinum toxins
Treatment of perioral dystonia with botulinum toxin in 4 cases of Meige's syndrome (Møller et al). 2003;96:544-9

Bulimia
Serum electrolytes in bulimic patients with parotid swellings (Mandel). 2003;96:414-19

C

Calcinosis
Evaluation of calcified carotid artery atheromas detected by panoramic radiograph among 80-year-olds (Ohba et al). 2003;96:647-50
Intraoral venous malformation presenting with multiple phleboliths (Scolozzi et al). 2003;96:197-200

Calcium hydroxide
Calcium hydroxide's association with different vehicles: in vitro action on some dentinal components (Pacios et al). 2003;96:96-101
Direct capping of human pulps with a dentin bonding system or with calcium hydroxide cement (Hörsted-Bindslev et al). 2003;96:591-600
Displaced calcium hydroxide paste causing inferior alveolar nerve paraesthesia: report of a case (Ahlgren et al). 2003;96:734-7
Efficacy of chlorhexidine- and calcium hydroxide-containing medicaments against *Enterococcus faecalis* in vitro (Basrani et al). 2003;96:618-24
Evaluation of the antibacterial potential of tetracycline or erythromycin mixed with calcium hydroxide as intracanal dressing against *Enterococcus faecalis* in vivo (Molander and Dahlén). 2003;96:744-50
Tissue-dissolution capacity and dentin-disinfecting potential of calcium hydroxide mixed with irrigating solutions (Zehnder et al). 2003;96:608-13

***Candida* and candidiasis**
A new method for studying the adhesion of *Candida albicans* to dentin in the presence or absence of smear layer (Sen et al). 2003;96:201-6
Fungal load and candidiasis in Sjögren's syndrome (Radfar et al). 2003;96:283-7
Oral candidiasis in hematopoietic cell transplantation patients: an outcome-based analysis (Epstein et al). 2003;96:154-63
The relationship between oral *Candida* carriage and the secretor status of blood group antigens in saliva (Shin et al). 2003;96:48-53

Carcinoma
Oncocytic mucoepidermoid carcinoma of parotid gland origin (Brannon and Willard). 2003;96:727-33
Oral lichen planus: progress in understanding its malignant potential and the implications for clinical management (Epstein et al). 2003;96:32-7
The clinical significance of follow-up sonography in the detection of cervical lymph node metastases in patients with stage I or II squamous cell carcinoma of the tongue (Hayashi et al). 2003;96:112-17
The correlation of histologic features with a panoramic radiography pattern and a computed tomography pattern of bone destruction in carcinoma of the mandibular gingiva (Nakayama et al). 2003;96:774-82
The possible premalignant character of oral lichen planus and oral lichenoid lesions: a prospective study (van der Meij et al). 2003;96:164-71

Carotid arteries
Carotid artery and jugular vein invasion of oral-maxillofacial and neck malignant tumors: diagnostic value of computed tomography (Yu et al). 2003;96:368-72
Evaluation of calcified carotid artery atheromas detected by panoramic radiograph among 80-year-olds (Ohba et al). 2003;96:647-50

Cartilage, articular
Expression of osteoprotegerin in synovial tissue and degradation of articular cartilage: comparison with arthroscopic findings of temporomandibular joint disorders (Kaneyama et al). 2003;96:258-62

Child
Primary Sjögren syndrome in childhood: report of a case and review of the literature (Nikitakis et al). 2003;96:42-7

Chlorhexidine
Efficacy of chlorhexidine- and calcium hydroxide-containing medicaments against *Enterococcus faecalis* in vitro (Basrani et al). 2003;96:618-24
The effect of chlorhexidine as an endodontic disinfectant (Zamany et al). 2003;96:578-81

Citric acid
Efficacy of various concentrations of citric acid at different pH values for smear layer removal (Haznedarolu). 2003;96:340-4

Cleft lip and palate
Outcome of bone grafting in relation to cleft width in unilateral cleft lip and palate patients (van der Meij et al). 2003;96:19-25

Clindamycin
Reduction of viable bacteria in dentinal tubules treated with clindamycin or tetracycline (Lin et al). 2003;96:751-6
Complement inactivators
Management of oral surgery in patients with hereditary or acquired angioedemas: review and case report (Maeda et al). 2003;96:540-3
Computed tomography; *see* Tomography, x-ray computed
Condyle, mandibular; *see* Mandibular condyle
Condylomata acuminata
The histologic differentiation of oral condyloma acuminatum from its mimics (Anderson et al). 2003;96:420-8
Corrections
Magnetic resonance evaluation of the disk before and after arthroscopic surgery for temporomandibular joint disorders (Ohnuki et al) (2003;96:141-8). 2003;96:266
Correspondence; *see* Letters to the Editor
Cysts
Huge cystic mandibular mass (Coban et al). 2003;96:253-7
Cytokines
Cytokines in periradicular lesions: the effect of linezolid treatment (Danin et al). 2003;96:492-8

D

Dental amalgam
A retrospective radiographic study of root-end surgery with amalgam and intermediate restorative material (Schwartz-Arad et al). 2003;96:472-7
Dental implants
Effect of teeth with periradicular lesions on adjacent dental implants (Shabahang et al). 2003;96:321-6
Dental instruments
An in vitro study of the torsional properties of new and used rotary nickel-titanium files in plastic blocks (Yared and Kulkarni). 2003;96:466-71
Bending properties of rotary nickel-titanium instruments (Schäfer et al). 2003;96:757-63
Effect of different temperatures and penetration depths of a System B plugger in the filling of artificially created oval canals (Jung et al). 2003;96:453-7
Evaluation of canal cleanliness and smear layer removal after the use of the Quantec-E irrigation system and syringe: a comparative scanning electron microscope study (Setlock et al). 2003;96:614-17
Influence of torque control motors and the operator's proficiency on ProTaper failures (Yared et al). 2003;96:229-33
Residual dentin thickness in mesial roots of mandibular molars prepared with Lightspeed rotary instruments and Gates-Glidden reamers (Zuckerman et al). 2003;96:351-5
Smear layer production by 3 rotary reamers with different cutting blade designs in straight root canals: a scanning electron microscopic study (Jeon et al). 2003;96:601-7
Dental pulp
Comparison of preoperative pain and medication use in emergency patients presenting with irreversible pulpitis or teeth with necrotic pulps (Nusstein and Beck). 2003;96:207-14
Direct capping of human pulps with a dentin bonding system or with calcium hydroxide cement (Hörsted-Bindslev et al). 2003;96:591-600
Substance P induces interleukin-8 secretion from human dental pulp cells (Patel et al). 2003;96:478-85
Dental pulp cavity
Endodontic measurement accuracy and perceived radiograph quality: effects of film speed and density (Sheaffer et al). 2003;96:441-8
Tuned-aperture computed tomography versus parallax analog and digital radiographic images in detecting second mesiobuccal canals in maxillary first molars (Barton et al). 2003;96:223-8
Dentin
A new method for studying the adhesion of *Candida albicans* to dentin in the presence or absence of smear layer (Sen et al). 2003;96:201-6
Calcium hydroxide's association with different vehicles: in vitro action on some dentinal components (Pacios et al). 2003;96:96-101
Direct capping of human pulps with a dentin bonding system or with calcium hydroxide cement (Hörsted-Bindslev et al). 2003;96:591-600
Residual dentin thickness in mesial roots of mandibular molars prepared with Lightspeed rotary instruments and Gates-Glidden reamers (Zuckerman et al). 2003;96:351-5
Dentist's practice patterns
Incidence of dental radiographic procedures during a 48-month population-based study of dentate adults (Gilbert et al). 2003;96:243-9
Diabetes mellitus
Periradicular radiographic assessment in diabetic and control individuals (Britto et al). 2003;96:449-52
Diagnosis, differential
Use of advanced imaging modalities for the differential diagnosis of pathoses mimicking temporomandibular disorders (Heo et al). 2003;96:630-8
Digital radiography; *see* Radiography, dental
Distraction osteogenesis; *see* Osteogenesis, distraction
Dystonic disorders
Treatment of perioral dystonia with botulinum toxin in 4 cases of Meige's syndrome (Møller et al). 2003;96:544-9

Evidence-based medicine
Endodontics in the era of evidence-based practice (Spångberg). 2003;96:517-18 (Editorial)

F

Fibroblast growth factor 2
Levels of fibroblast growth factor 2 in synovial fluids in human patients with internal derangement of the temporomandibular joint (Sato et al). 2003;96:673-9
Fibrous dysplasia of bone
Ankylosis of the jaw in a patient with fibrodysplasia ossificans progressiva (Herford and Boyne). 2003;96:680-4
Dental characteristics of fibrous dysplasia and McCune-Albright syndrome (Akintoye et al). 2003;96:275-82
Fish products
Gingivostomatitis after eating fish parasitized by *Anisakis simplex:* a case report (Eguia et al). 2003;96:437-40
Forehead
The aging forehead (Niamtu) (Letter); (Ghali) (Reply). 2003;96:656-7, 657-8
Fractures
Clinical signs of orbital wall fractures as a function of anatomic location (Jank et al). 2003;96:149-53
Effect of iterative restoration on the detection of artificially induced vertical radicular fractures by Tuned Aperture Computed Tomography (Nair et al). 2003;96:118-25
Endoscopic-assisted repair of subcondylar fractures (Miloro). 2003;96:387-91

G

Gallium radioisotopes
Value of gallium-67 scanning in differentiation of malignant tumors from benign tumors or inflammatory disease in the oral and maxillofacial region (Li et al). 2003;96:361-7
Genetics
Constitutional mutation of keratin 13 gene in familial white sponge nevus (Shibuya et al). 2003;96:561-5
Gingival diseases
Gingivostomatitis after eating fish parasitized by *Anisakis simplex:* a case report (Eguia et al). 2003;96:437-40
The correlation of histologic features with a panoramic radiography pattern and a computed tomography pattern of bone destruction in carcinoma of the mandibular gingiva (Nakayama et al). 2003;96:774-82
Glass ionomer cements
Biocompatibility of an experimental glass-ionomer cement sealer in rat mandibular bone (Ogasawara et al). 2003;96:458-65
Grafts; *see* Transplants
Granular cell tumor
Immunohistochemical evaluation of cell proliferation antigen Ki-67 and apoptosis-related proteins Bcl-2 and caspase-3 in oral granular cell tumor (Chrysomali et al). 2003;96:566-72
Polypoid S-100–negative granular cell tumor of the oral cavity: a case report and review of literature (Basile and Woo). 2003;96:70-6
Granuloma
Immunolocalization of interleukin 4, interleukin 6, and lymphotoxin α in dental granulomas (de Sá et al). 2003;96:356-60
Gutta-percha
Comparison of 6 different gutta-percha techniques (part II): Thermafil, JS Quick-Fill, Soft Core, Microseal, System B, and lateral condensation (Gençolu). 2003;96:91-5
Effect of different temperatures and penetration depths of a System B plugger in the filling of artificially created oval canals (Jung et al). 2003;96:453-7
The effect of using an inverted master cone in a lateral compaction technique on the density of the gutta-percha fill (Wu et al). 2003;96:345-50

H

Halitosis
Low salivary flow and volatile sulfur compounds in mouth air (Koshimune et al). 2003;96:38-41
Head and neck neoplasms; *see also* Mouth neoplasms
Carotid artery and jugular vein invasion of oral-maxillofacial and neck malignant tumors: diagnostic value of computed tomography (Yu et al). 2003;96:368-72
Intraosseous schwannoma of the mandible: a case report and review of the literature (Chi et al). 2003;96:54-65
Structural and functional injury in minipig salivary glands following fractionated exposure to 70 Gy of ionizing radiation: an animal model for human radiation-induced salivary gland injury (Radfar and Sirois). 2003;96:267-74
Value of gallium-67 scanning in differentiation of malignant tumors from benign tumors or inflammatory disease in the oral and maxillofacial region (Li et al). 2003;96:361-7
Health behavior
Oral health and health behavior in patients under anticoagulation therapy (Padrón et al). 2003;96:519-20 (Letter)
Heart diseases
Dental infections and serum inflammatory markers in patients with and without severe heart disease (Meurman). 2003;96:695-700
Hemangioma
Intraoral venous malformation presenting with multiple phleboliths (Scolozzi et al). 2003;96:197-200
Primary angiosarcoma of the parotid gland arising from benign congenital hemangioma (Damiani et al). 2003;96:66-9
Hematopoietic stem cell transplantation
Oral candidiasis in hematopoietic cell transplantation patients: an outcome-based analysis (Epstein et al). 2003;96:154-63
Hepatitis
Prevalence of hepatitis viral infection in dental patients with impacted teeth or jaw deformities (Takata et al). 2003;96:26-31
Herpesviridae
Herpesviruses in periapical pathosis: an etiopathogenic relationship? (Slots et al). 2003;96:327-31
Oral Kaposi's sarcoma: a clinicopathologic study from South Africa (Lager et al). 2003;96:701-10
Histiocytosis, Langerhans-cell
Huge cystic mandibular mass (Coban et al). 2003;96:253-7
Human papillomavirus; *see* Papillomavirus, human
Hyperpigmentation
Idiopathic lenticular mucocutaneous pigmentation (Laugier-Hunziker syndrome): a report of a case (Siponen and Salo). 2003;96:288-92
Hyperplasia
Follicular lymphoid hyperplasia of the palate: report of a case and review of the literature (Kolokotronis et al). 2003;96:172-5
Histopathologic comparison of normal and hyperplastic condyles (Eslami et al). 2003;96:711-7
Hypersensitivity
Allergic fungal sinusitis: report of 3 cases and review of the literature (Willard et al). 2003;96:550-60

I

Immunocompromised host
Necrotizing stomatitis: report of 3 *Pseudomonas aeruginosa*–positive patients (Barasch et al). 2003;96:136-40
Oral Kaposi's sarcoma: a clinicopathologic study from South Africa (Lager et al). 2003;96:701-10
Immunohistochemistry
Immunohistochemical evaluation of cell proliferation antigen Ki-67 and apoptosis-related proteins Bcl-2 and caspase-3 in oral granular cell tumor (Chrysomali et al). 2003;96:566-72
Polypoid S-100–negative granular cell tumor of the oral cavity: a case report and review of literature (Basile and Woo). 2003;96:70-6
Impacted tooth; *see* Tooth, impacted
Infection; *see also* Bacterial infections; *specific infection*
Dental infections and serum inflammatory markers in patients with and without severe heart disease (Meurman). 2003;96:695-700
Effect of teeth with periradicular lesions on adjacent dental implants (Shabahang et al). 2003;96:321-6
Endodontic infection: some biologic and treatment factors associated with outcome (Chugal et al). 2003;96:81-90
Temporomandibular joint involvement in malignant external otitis (Mardinger et al). 2003;96:398-403
Inferior alveolar nerve; *see* Mandibular nerve
Inflammation
Dental infections and serum inflammatory markers in patients with and without severe heart disease (Meurman). 2003;96:695-700
Value of gallium-67 scanning in differentiation of malignant tumors from benign tumors or inflammatory disease in the oral and maxillofacial region (Li et al). 2003;96:361-7
Interleukins
Immunolocalization of interleukin 4, interleukin 6, and lymphotoxin α in dental granulomas (de Sá et al). 2003;96:356-60
Substance P induces interleukin-8 secretion from human dental pulp cells (Patel et al). 2003;96:478-85

Comparison of the effects of 2 doses of methylprednisolone on pain, swelling, and trismus after third molar surgery (Üstün et al). 2003;96:535-9
Management of oral surgery in patients with hereditary or acquired angioedemas: review and case report (Maeda et al). 2003;96: 540-3

Tooth fractures
Effect of iterative restoration on the detection of artificially induced vertical radicular fractures by Tuned Aperture Computed Tomography (Nair et al). 2003;96:118-25

Tooth transplantation
Twelve-year follow-up of an autogenous mandibular canine transplant (Ionnidou and Makris). 2003;96:582-90

Torque
An in vitro study of the torsional properties of new and used rotary nickel-titanium files in plastic blocks (Yared and Kulkarni). 2003;96:466-71
Influence of torque control motors and the operator's proficiency on ProTaper failures (Yared et al). 2003;96:229-33

Trabecular bone
Brief communication: bone trabeculae are visible on periapical images (Colosi et al). 2003;96:772-3
Visibility of trabecular structures in oral radiographs (Couture et al). 2003;96:764-71

Transplants
A preliminary study of monocortical bone grafts for oroantral fistula closure (Haas et al). 2003;96:263-6
A prospective placebo-controlled double-blind trial of antibiotic prophylaxis in intraoral bone grafting procedures: a pilot study (Lindeboom and van den Akker). 2003;96:669-72
Oral candidiasis in hematopoietic cell transplantation patients: an outcome-based analysis (Epstein et al). 2003;96:154-63
Outcome of bone grafting in relation to cleft width in unilateral cleft lip and palate patients (van der Meij et al). 2003;96:19-25
Twelve-year follow-up of an autogenous mandibular canine transplant (Ionnidou and Makris). 2003;96:582-90

Treatment outcome
Adverse events and adverse outcomes (Greenberg). 2003;96:251 (Editorial)
Endodontic infection: some biologic and treatment factors associated with outcome (Chugal et al). 2003;96:81-90

Trismus
Comparison of the effects of 2 doses of methylprednisolone on pain, swelling, and trismus after third molar surgery (Üstün et al). 2003;96:535-9

Tuberculosis, osteoarticular
Bilateral bone loss of the maxilla (Brown et al). 2003;96:6-11

U

Ulcer, oral; *see* Oral ulcer

Ultrasonography
The clinical significance of follow-up sonography in the detection of cervical lymph node metastases in patients with stage I or II squamous cell carcinoma of the tongue (Hayashi et al). 2003; 96:112-17
Ultrasound identification and quantitative measurement of blood supply to the anterior part of the mandible (Lustig et al). 2003; 96:625-9

V

Venous malformations; *see* Arteriovenous malformations

W

Wuehrmann Prize
Excellence in publishing: the Wuehrmann Prize (Matteson). 2003; 96:385 (Editorial)

X

X-ray film
Endodontic measurement accuracy and perceived radiograph quality: effects of film speed and density (Sheaffer et al). 2003;96: 441-8
Perceived quality of radiographic images after rapid processing of D- and F-speed direct-exposure intraoral x-ray films (Bernstein et al). 2003;96:486-91
The effect of automated nonroller processing on the sensitometric characteristics of 3 intraoral film types (Geist et al). 2003;96: 102-11

Xerostomia
Low salivary flow and volatile sulfur compounds in mouth air (Koshimune et al). 2003;96:38-41

Z

Zinc oxide-eugenol cement
Biocompatibility of an experimental glass-ionomer cement sealer in rat mandibular bone (Ogasawara et al). 2003;96:458-65
